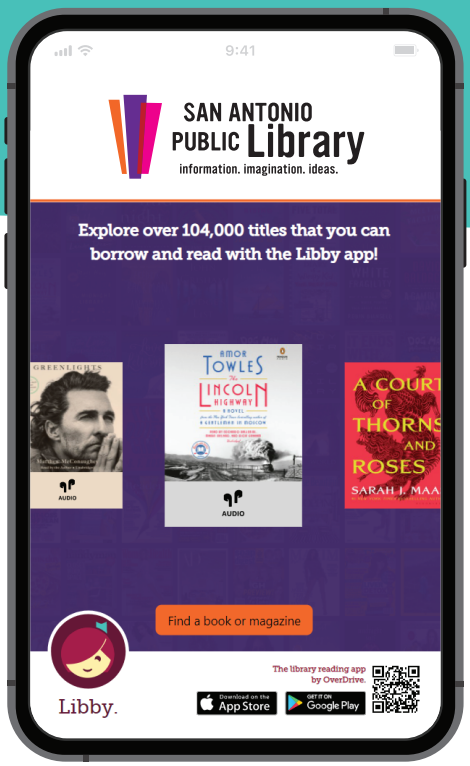
Libby Showcase



Why use Libby Showcase?

Invite users to explore your digital collection with Libby Showcase: user-friendly touchscreen software designed to help you captivate more readers and raise awareness of the Libby app.

This software is free to libraries using Libby, and you can set up unlimited showcases in different locations and branches. Libby Showcase is compatible with any touchscreen device (iPad mini-sized tablet or larger) running Windows 10/8, Android or iOS.

Libby Showcase also offers a display-only mode for your library to use as digital signage on any monitor to promote your digital collection in your library or throughout your community.

Note: OverDrive provides the software for Libby Showcase. Your library is responsible for providing hardware and internet access.

Why use Libby Showcase?

Libby Showcase is a valuable tool for promoting Libby and your ebook, audiobook and magazine collection. The software interface aligns with the look and feel of Libby, streamlining the transition from kiosk to app.

With Libby Showcase, users can browse and sample your collection, and get links to enjoy titles in the Libby app.

Use cases for Libby Showcase

Libby Showcase's tools let you customize devices for any location to best fit the needs and interest of your community. You can filter content based on format, language, audience or subject, plus create displays that each highlight specific interest areas. For example, you might use Libby Showcase to:

- Highlight YA and juvenile content in designated areas
- Showcase digital magazines alongside physical magazines
- Promote your library's digital services in your lobby, behind your reference desk, or at a local community center
