

Make Reading Fun with Libby

ADVERTISEMENT

160 million. That's the number of people in the United States without a library card. As public libraries transform to better serve their communities, half the nation has yet to discover and benefit from the valuable programs and online services available for free, anytime and anywhere from their local library.

To enlighten millions of potential library users about the wonderment of reading, OverDrive has introduced a new way to find and engage with their local library. It's a library aide that is always with us, 24/7, and ready to go with just one tap. An app that makes reading ebooks and audiobooks fun.

Meet Libby

Libby is the new one-tap reading app built by OverDrive. It's a friendly guide to find libraries near you, remember your library card number, and browse or search your local library's ebook and audiobook catalog. You can borrow books, instantly, for free, using just the device in your hand anytime and anywhere. In Libby, you are always just moments away from their next great reading adventure.

Features you'll love

Warm, personal and fun to use, Libby was engineered to create a simple and unique reading experience for users of all ages. With Libby, you're always one tap away from the library, your bookshelf and the title you're reading. Readers have the option to download titles for online and offline reading or stream them to save space. Libby remembers a reader's place in the book as well as notes and bookmarks across devices. OverDrive's best-in-class technology also enables Libby to present any ebook or audiobook in a simple, beautiful format regardless if the title is a novel, comic or graphic novel, reference material, cookbook or Read-Along.

Give Libby a try

We're excited that Libby will give you a new, fun reading experience. **Get started today at meet.libbyapp.com.** Libby is free to download and is designed for iPhone®, iPad® and Android™ phones and tablets. If you have questions, please visit help.libbyapp.com or tap Tips & Secrets in the app.
