Benefits of Joining the Consortium for Audiobook & eBook

THE COLLECTION

Joining the consortium gives your library shared access to thousands of ebooks, audiobooks, and magazines through Libby. This collaborative model expands your collection, lowers costs, and provides your community with instant access to a wide range of titles.

THE PLATFORM

Consortium members use the OverDrive platform as a shared hub for digital content, giving all participating libraries access to joint collection of ebooks and audiobooks. Each library has its own login and dashboard for purchasing, reporting, and collection development.

THE APPS

Faculty and students can borrow on any device using the Libby app or a web browser. Libby works with Kindle, iOS, Android, and other major devices, making access simple.

THE SERVICES

Members get built-in support: video tutorials, promotional materials, forms and templates, plus hosting, maintenance, and implementation resources. Secondary user support is available to help your team and community.

THE COST

The cost model is structured for value. A portion of your invoice goes directly to content purchasing for your community, and the remainder covers platform hosting and maintenance. Detailed cost breakdowns are available on request.

THE INTEGRATION

Libby integrates with your library systems for a seamless experience. Titles appear in your catalog, users log in with SSO, data flows into reports, and branding stays consistent.

FLEXIBLE PURCHASING

Annual funds are deposited into your account and can be used at any time, giving you the flexibility to purchase when needs arise. This helps your collection grow continuously instead of waiting on budget cycles.
