

Your school + The public library = More reading

Students win when schools and public libraries partner.

This is easy with Public Library CONNECT, a built-in feature of the Sora K-12 reading app that enables students to connect with their local public library's digital collection.

In addition to digital titles available from their school, students can add their public library and instantly choose from thousands of age-appropriate ebooks and audiobooks. The result of this game-changing integration? **Students read more.**

Libraries & schools across the country are connecting.

"Sora is the equivalent of us receiving thousands of quality books for free."

Lisa Kulka, former Coordinator for Libraries & Instructional Materials
Harlandale ISD (TX)

How it works

1. Students add their local public library in the Sora app.
2. They're presented with all the age-appropriate titles available to them from the library's digital collection.
3. Titles are borrowed using existing school credentials.
