

Google Classroom Integration

Incorporate Sora titles into lessons & assignments

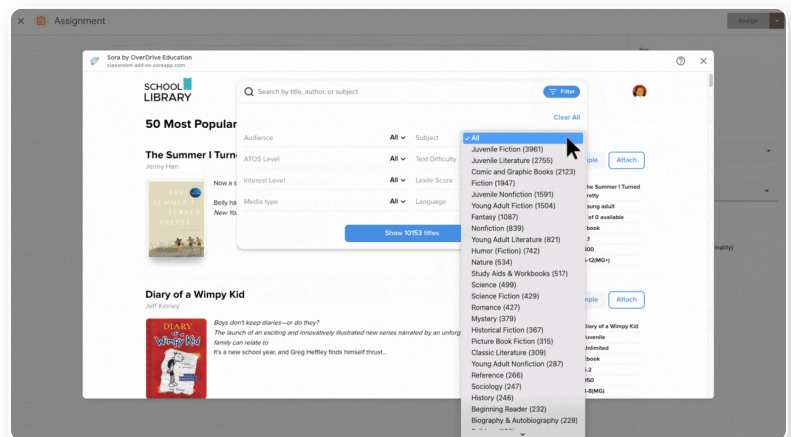

Sora
Where students read

Google Classroom helps over 150 million educators and students worldwide teach and learn. Learn how Sora integrates with Google Classroom so that it's easier than ever to access books for literacy achievement.

THE SORA GOOGLE CLASSROOM ADD-ON

Search your school's Sora collection and attach titles to Google Classroom assignments, all in one place. Once the add-on is installed, you can seamlessly log in to your school's ebook and audiobook collection, browse titles and attach title links directly to assignments – all without leaving Google Classroom!

Please note: Classroom add-ons are available with the Teaching & Learning Upgrade or Google Workspace for Education Plus editions.

GET STARTED WITH THE SORA ADD-ON

1. Install the add-on

Your Google Classroom admin can pre-install add-ons for all authorized users, or allow list specific add-ons for educators to install.

2. Sign into the Sora add-on

Once the Sora add-on has been installed, you can use it to log in to your school's Sora collection.

3. Browse & attach titles

Use the add-on to browse the most popular books in your school's collection, search for titles and attach title links directly to assignments.

Contact your school's Google Classroom admin to learn more.

INTEGRATION WITH OVERDRIVE MARKETPLACE

Don't have the add-on? That's okay! You can share title assignments, title detail pages and curated collection links directly to Google Classroom through OverDrive Marketplace, the online shopping and administrative portal for Sora schools.
