OverDrive Marketplace

Over 2.5 million eBooks, audiobooks, and streaming video to purchase for your school website.

The screenshot shows the OverDrive Marketplace website interface. At the top, there is a navigation bar with the OverDrive Marketplace logo, a search bar, and user information (English, Melissa Higy, OverDrive SDL Training Demo (OH)). A shopping cart icon shows 0 items for \$159.79, and a checkout button is visible. Below the navigation bar, there is a main banner for the "Holiday Spectacular" sale, featuring a smartphone displaying audiobooks and a bear character. The banner text reads: "Give them the audiobooks they've been asking for" with a "Shop Now" button. To the left of the banner, there is a sidebar with navigation options: SHOP (One Copy/One User & Metered Access), INSIGHTS, ADMIN, CURATE, NEWS, SUPPORT, and FEATURED. Below the sidebar, there are sections for "Preorder titles", "Must-haves", "All saved searches", "Basic search", and "Advanced search". The "Insights" section lists various search filters and results. Below the insights, there is a "Christmas Sheet Music" section with five book covers: "PENTATONIX That's Christmas to Me", "FINGERPICKING CHRISTMAS SONGS 15 Songs", "TRUMPET CHRISTMAS Favorites", "FIRST 50 CHRISTMAS SONGS YOU SHOULD PLAY ON THE PIANO", and "Christmas Anthology 30 Holiday Arrangements for Piano Solo For All Piano Methods".

What are content access levels?

Content access levels indicate which types of users can borrow a title based on a field identified during authentication.

Available access levels: **Juvenile** and **Young adult (YA)**

- All titles are available to standard/Adult users automatically.
- Libraries and schools can optionally add access for Juvenile and/or Young adult users.

Examples:

- A title with a subject of *Juvenile Literature* should have Juvenile and YA access levels.
- A title with a subject of *Young Adult Fiction* should have the YA access level only.
- A title with a subject of *Erotic Literature* should not have either access level.

Manage access levels

Assign the following access level(s) for these titles (or deselect an access level to remove access for those users):

- Juvenile
- Young adult

By selecting the access level(s) above, you're agreeing to allow the associated user type(s) (as identified during authentication) to borrow these titles.

What is a title assignment?

- A *tool* in OverDrive Marketplace that works with titles you already own.
- Assigns titles already in your collection to students for a specific period of time.
- Titles are automatically checked out on the start date.
- Titles automatically expire on the end date.
- *You may need to purchase additional copies of the owned title if you don't already have enough for all of your students.*
