One platform. Every language learner.

Empower multilingual students with built-in supports and interactive learning tools.
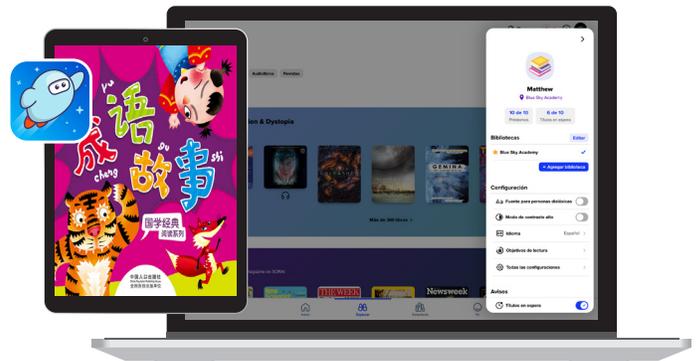

Sora
Where students read

Sora is a classroom-ready digital reading platform designed to make multilingual reading inclusive and engaging. Whether students are learning English or another language, Sora supports them in building confidence and proficiency.

Access thousands of native and translated titles across 100+ languages — including Spanish, Chinese, Arabic, French and German — to support language acquisition and literacy growth anytime, anywhere.

Why Sora?

Curriculum-aligned language resources

- **Bilingual titles, leveled readers, and read-alongs** aid language acquisition, fluency and literacy development.
- **Curate collections by language or topic** for easy discovery and alignment with instructional goals

Inclusive reading experience

- **Multilingual interface:** Sora's interface supports multiple languages, helping students navigate and engage with content in their preferred language.
- **Built-in learning tools:** Features like highlighting, note-taking, text-to-speech, vocabulary support, and translation assist multilingual learners.
- **Advanced search and filtering:** Students can easily find books in the language(s) they need.

Support for educators

- **Access free multilingual marketing resources on Sora's Resource Center**
- **Our in-house librarians can help keep your collection fresh and relevant** with regularly updated recommended reading lists.
