

Getting started with ereaders

You can borrow ebooks from your school and transfer them to compatible ereaders using free Adobe® Digital Editions (ADE) software on your Windows® or Mac® computer.

NOTE: If you have a Kindle, a NOOK GlowLight Plus, or a newer Kobo ereader, your device works a little differently than the steps below. Also, if your device can install apps, you may be able to use the OverDrive app to borrow ebooks directly on your device. For more help, visit help.overdrive.com.

STEP 1

Install ADE on your computer.

(Get it from www.adobe.com/products/digital-editions.html.)

STEP 2

Connect your ereader to your computer.

STEP 3

On your computer, open your school's digital collection and borrow an ebook.

NOTE: You can find your school's digital collection using overdrive.com/libraries.

STEP 4

From your **Checkouts** page, select a download format for your borrowed ebook. For the best experience, we recommend **EPUB** or **Open EPUB**.

Downloaded ebooks open in ADE. If prompted, authorize your computer with a free Adobe ID or OverDrive account.

STEP 5

To transfer an ebook to your ereader, drag and drop it from your ADE library into your ereader, which should appear on the left under "Devices."
