What's new with Sora?
Out of this world innovations!
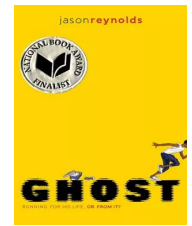

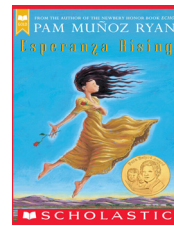

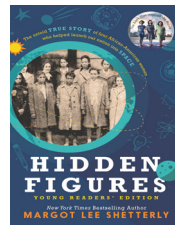

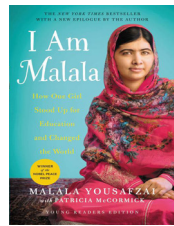

Sora
Where students read

BUNDLED CLASS SETS FOR REQUIRED READING

Give every student access to the required reading they need with On-Demand Class Sets. Available through OverDrive Marketplace (Sora's shopping and administrative portal), this short-term rental option is perfect for delivering classroom books to as many students as needed, whether your district has built its own reading lists or uses high-quality instructional materials from a provider.

NEW: Schools using EL Education curriculum can now purchase an ebook bundle of required reads for grades K-8 at a single price per student/per grade.

PRODUCT ENHANCEMENTS

Sora updates

Educator feedback informs the latest and greatest Sora updates, designed to help students read more and achieve success in the classroom and beyond.

- **Read to Me**: This text-to-speech support feature allows students to select any word, phrase, sentence or paragraph in an ebook and choose Read to Me to hear the selected text read aloud. Students can also opt to hear pronunciations for words they define while reading and everywhere else they see defined words in Sora.

- **Device notifications**: Receive an alert to your browser or iOS or Android device when a hold is ready to borrow in the Sora app.

- **+Add Library**: When students log in to their public library in Sora, the Explore tab will automatically display collections the library has curated specifically for kids or teens, making it easier to find the books best suited for them.

- **COMING SOON! Reading Goals:** This upcoming feature encourages students to take ownership of their reading goals and rewards their progress along the way. Reading Goals give students the power to transform their literacy engagement by setting daily goals, measuring their real-time reading stats and unlocking exciting new milestones. (Plus, educators will be able to access real-time Reading Goals data in Marketplace's student dashboard.)
