# Advantage Filtering Tool

## Hiding titles from Advantage collections using Advantage filtering

The Advantage filtering tool is only available for schools.

Permission required to enable the Advantage filtering tool: Marketplace settings  
Permission required to use the Advantage filtering tool: Advantage filtering

With the Advantage filtering tool, you can hide shared collection titles from individual Advantage collections. When you hide a title from an Advantage collection, any user who has access to that collection in Sora will no longer be able to see or borrow the title.
