PRODUCT ENHANCEMENTS

Sora updates

Educator feedback informs the latest and greatest updates from Sora, designed to help students read more and achieve success in the classroom and beyond.

- Using **special access codes**, students can **unlock bundles of titles** educators have reserved and bundled in Marketplace.
- Students can choose a **lending period** to match their reading speed. **Note:** *Your school must enable multiple lending period options in OverDrive Marketplace for this preference to appear.*

Student dashboard

When enabled by your school, authorized educators can track individual and aggregated reading data like books opened, time read and progress made in Marketplace.

Sora Showcase

Sora Showcase lets you set up unlimited touchscreen kiosks to let students browse, search, sample, and get links to borrow titles in Sora, supporting discovery of your school's digital collection—**all for free!**

TeachingBooks

OverDrive acquired TeachingBooks in Oct. 2021. A leading creator of supplemental materials that support informed, joyful reading across the curriculum, TeachingBooks is available to over 55,000 schools, public libraries and higher education institutions. **Learn more at teachingbooks.net**

Public Library CONNECT

Give your students age-appropriate access to more reading choice with in-app access to their local public library's digital collection. When the public library has opted in, students can browse and borrow with their school credentials!

COMING SOON: Sora is a Google Classroom Add-on!*

Search your school's Sora collection and attach titles directly to assignments – all without leaving Google Classroom!

Learn more at edu.google.com/workspace-for-education/classroom/

*This feature is currently in a closed beta. Classroom add-ons is available with the Teaching & Learning Upgrade or Google Workspace for Education Plus editions.
