

# Empower multilingual learners with Sora

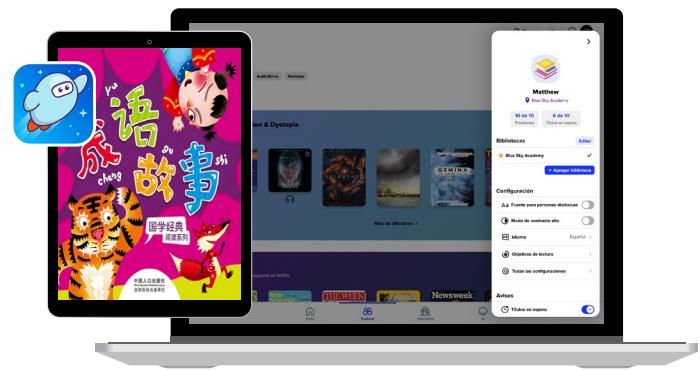

Sora is the classroom-ready digital reading platform that makes multilingual reading inclusive and engaging. Whether your students are learning English or another second language, Sora helps them build confidence and capability.

Access thousands of native and translated titles across 100+ languages – including Spanish, Chinese, Arabic, French and German – to support language acquisition and literacy growth anytime, anywhere.

## Why Sora?

### Curriculum-aligned language resources

- **Bilingual titles, leveled readers, and read-alongs** aid language acquisition, fluency and literacy development.
- **Curate collections by language or topic** for easy discovery and alignment with instructional goals

### Inclusive reading experience

- **Sora's multilingual interface** helps students navigate and engage with content in their preferred language.
- **Built-in tools** like Google Translate, definitions and pronunciations support diverse learning needs.
- **Advanced search preferences** help students find books in the language(s) they need.

### Support for educators

- **Access free multilingual marketing resources** on Sora's Resource Center
- **Our in-house librarians can help keep your collection fresh and relevant** with regularly updated recommended reading lists.
